

The Regional Office of Education and Kewanee School District are happy to announce that we will again be offering before and after school programming during the 2023-2024 school year. These programs are **FREE** of cost. Daily snacks and transportation are provided as well. These programs provide academic enrichment opportunities during non-school hours. These programs offer programming to help students meet state standards in core academic subjects, such as Reading and Math as well as offering students a variety of Enrichment and Social Emotional Learning activities. Our programs also offer parent/guardian educational opportunities and family events throughout the school year.

Registration packets are available at each site. Site Coordinators will be available during Open House. Registration is open year round. For more information, please contact:
