Dear parent or guardian,

The State of Illinois requires all students who enter **12th grade** to submit proof of **meningococcal vaccination booster dose after age 16**. Please make an appointment with your healthcare provider or bring in documentation to the school that this immunization has been completed.

The Illinois State deadline is **October 15** of each school year. **All noncompliance will be reported to the state after this date.** If the immunization was not completed prior to the start of school, we are requesting you provide the school with an appointment date. **Appointments become more difficult to obtain as the school year begins, so please make your appointments as soon as possible.**

If you have any questions, please contact the school nurse. Thank you for your cooperation with this state requirement.

Tara Hewitt BSN RN  
School Nurse
